Frank C. Worrell Phd

President, American Psychological Association
750 First st.
Washington DC, NE 20002

Dear Mr. Worrell

I am writing to you today to express my interest in the American Psychological Association. I first was introduced to your cooperation through a Psychology class I took in high school back in 2021. Psychology has always been an interest of mine since I was a kid in grade school. As of now, I have completed courses at Central Michigan University for Forensic Psychology, in which I have received a Doctorates degree.

My interest in your association has been more than obsessive in the last few years. Your display for progress has been recognized across the U.S. Not to mention the opportunities that you offer to individuals such as myself. With the wide scope of available jobs that the APA offers, I'm positive that I could be able to utilize my skills effectively and efficiently to be able to pursue the overall goal of the APA. With my primary degree being in forensic Psychology, I am able to take up roles that are not directly related to a Forensic Psychologist. Below this letter I will put in my personalized resume, so that you may be able to assess my skills personally.

I look forward to talking to you in the near future, so that we may be able to discuss any questions or information that you would like me to know about. You can contact me using the information above, so that we can schedule an appointment to meet together. I would like to thank you for your consideration of an opportunity at your establishment.

Sincerely,

Gabriel Hammett
